JUNIOR TEAM TENNIS MATCH REMINDERS

- For 2 court option, must have at least 3 players from each team present for a match (if team only has 2 players then they can borrow a player from other team and default one match per round). For 3 court option, must have at least 4 players from each team present for a match.
- Minimum of 4 and maximum of 6 players on team rosters--If more than 6 players, add an additional court
- Team Coach/Manager at each match
- Option 1--Four rounds of play (one singles and one doubles per round) - all players guaranteed to play two times

Suggested order of play for 2 courts:

Round 1 – better singles, weaker doubles
Round 2 – weaker singles, stronger doubles
Round 3 – singles, doubles*
Round 4 – singles, doubles*

**In the rounds 3 and 4, it is helpful to mix-up the line-up so players have a chance to play different players.*

- Option 2--Three rounds of play (Rounds 1 & 2: 1 doubles and 2 singles, Round 3: 2 doubles) - all players guaranteed to play two times

Suggested order of play for 3 courts:

Round 1 – better singles, weaker doubles
Round 2 – weaker singles, stronger doubles
Round 3 – two doubles (*ideally mixing up the line-up so players have a chance to play different players*)

- The two coaches will arrange all singles matches by strength and arrange doubles matches by strength when possible
- Official Scorecard completed and exchanged prior to each team match
- For timed matches--need to designate someone to keep time each round (30 minute matches). *Only completed games should be listed so if it is 5-2 in the set and 30-40 in the game, 5-2 is recorded*
- Team Standings must be kept by entering match scores on TennisLink

LINEUP SCENARIOS:

The goal is to have an appropriate level of competition for everyone and for all players to play more than one match. Adjustments can be made to the line-up based on results from the early rounds.
